

GRAAFF-REINET CID BUSINESS PLAN

Community Improvement District (“CID”)

For the period 1 July 2026 – 30 June 2031

Compiled in accordance with the Dr. Beyers Naude Local Municipality Special Rating Area By-law, 2025 as amended by Special Rating Area amendment By-law 2025, and SRA Policy 2025. As well as compatibility with the Dr. Beyers Naude Local Municipality IDP and section 22 (4) of the MPRA.

This Business Plan is available at www.grtcid.co.za

PART A: MOTIVATION REPORT

1. Introduction

1.1. Background

Graaff-Reinet, located in the Eastern Cape province of South Africa, has long been known for its rich history, beautiful landscapes, and as a centre of cultural heritage. This unique town is completely surrounded by the Camdeboo National Park which is home to the beautiful Valley of Desolation. What sets it apart is its mixture of rich history and the natural beauty of the Karoo landscape. The town was founded in 1786, named after the Governor of the Cape Colony at the time, Cornelis Jacob van de Graaff, and his wife, Cornelia Reinet. Over the years the town has slowly degenerated. We have seen a decline in infrastructure and service delivery. The town is experiencing economic challenges, including high unemployment and poverty, which have led some individuals to engage in criminal activity as a means of survival. However, many of these challenges could be addressed through a Community Improvement District (CID).

The purpose of this Business Plan is to give insight and background to the intention and motivation to establish a CID in Graaff-Reinet. A proposed geographic area has been identified for the CID as detailed in the map below but the aspiration is to effect change and upliftment throughout the broader community of Graaff-Reinet. A CID is a designated geographic area where property owners pay additional rates to support supplemental Municipal services. For communities that desire higher levels of Municipal services, a CID offers the option to pay for these additional services, ensuring they are both affordable and sustainable. A CID is always initiated by the community, run by the community and for the benefit of the community.

Once applied for and approved by the Municipality, the Graaff-Reinet CID (GRT CID) will be run by a Non-Profit Company (NPC) that will be responsible for the implementation of the services detailed in the Business Plan. The GRT CID is established for a five years, with an option to apply for another term if property owners agree to.

1.2. Nature and Functions of a CID

A CID would serve as a tool for ensuring that Graaff-Reinet stays vibrant, prosperous, and sustainable, while allowing it to address some of the challenges the town faces. Tourism has the potential to be a major contributor to the town's economy and through the GRT CID, we hope to enhance its appeal and potential as a vibrant tourist destination. According to Section 22 of the Municipal Property Rates Act (MPRA) and the Municipality By-law and Policy, a Municipality may designate an area as a CID. The additional rates collected are spent according to the approved Business Plan. The amount of the additional rates is determined by the Municipal property valuation and derived from the budget in the Business Plan. The GRT CID is proposed by a Steering Committee consisting of passionate and active members of the community who live and work in Graaff-Reinet. If established, the GRT CID would be managed via an NPC where all eligible property-owning residents would have the option to become members, ensuring community involvement in decision making and oversight. The GRT CID will partner with civic organisations to strengthen their efforts on the ground and will engage collaboratively with both the public and private sectors to drive the town's development, promotion, and overall management. The primary objective of the GRT CID is to supplement the services provided by the local authority, with a focus on enhancing Safety & Security, Cleaning & Maintenance services, Environmental Development and beautification of public spaces and Social Upliftment.

In accordance with the By-laws which govern CIDs and their expenditure allocation, the four primary key 'pillars' that will make up the GRT CID are as follows:

1. Safety & Security: Improving public safety for all residents.
2. Cleaning & Maintenance: Maintaining public spaces to improve overall quality of life.
3. Environmental Development: Promoting inclusivity and diverse community engagement in improving public amenities and spaces.
4. Social upliftment: Empowering local communities through support and development.

1.3. Name of the Proposed District

Name:

Graaff-Reinet Community Improvement District Non-Profit Company (GRT CID NPC)

Vision:

Our vision is to ensure a safe, clean and sustainable environment for the benefit of all who live and work in Graaff-Reinet.

Mission:

Our mission is to enhance the community through a commitment to safety, cleanliness and maintenance, while fostering environmental sustainability, beautification, and a strong sense of social responsibility.

Goals:

- Encouraging all residents of Graaff-Reinet to take pride in their town and actively engage as responsible citizens within the community.
- Fostering a sense of safety and security throughout the town, where people can walk, hike, cycle, and children can play freely in the park with their friends.
- Promoting a clean, sustainable town that prioritizes recycling and upcycling waste, minimizing environmental impact while keeping the town clean.
- Celebrating the town's unique landscape and location, surrounded by a Camdeboo National Park, and integrating its natural beauty into urban spaces, ensuring green areas flourish within the town.
- Reducing unemployment and fostering job creation, helping to build a sense of pride, purpose, and opportunity for the community.
- Working towards poverty reduction and improving the overall well-being of residents.
- Putting in place measures which should support property values which in turn may lead to more investment in our town.

1.4. Applicant

The applicant is a member of the Graaff-Reinet CID steering committee:

Name & Surname: Derek Light

Address: 68 Somerset Street, Graaff-Reinet 6280

Email: moira@dereklight.co.za

The following property owners in the defined area compromise the steering committee:

Name & Surname	Home Address	Erf Number
Mr. Wessel Landman	79 Somerset street	696
Mr. Robert Hobson	15 Cradock street	72
Mr. Andy Johnson	11 Egypt Lane	1674
Mr. Chrisjan Maya	34 Blossom street	3018
Mr. Niel Keyser	110 Stockenstroom street	3873
Mrs. Anziske Kayster	3 Meintjies street	289

Additional members:

- Mrs. Tanya Kroon: Paardekraal Farm, Camdeboo
- Ms. Leratho Siyaya: 18 Napier Street, Graaff-Reinet

1.5. Geographical Area

The geographical area of the proposed CID includes the following areas/neighborhoods:

- **Horseshoe:** The older, historic part of the town itself, situated within the broad, almost encircling loop of the Sundays River (including Cypress Grove)
- **Spandau and Bergendal:** North of Meiring street to the South of Bresler street
- **Sunnyside:** Smith street to Lewack street
- **Industrial area:** North of Main Road and South of Bresler street

Graaff-Reinet Community Improvement District composition:

- Yellow: Residential area
- Purple: Industrial area
- Dark Blue: Business

1.6. Strategic Objectives

Across South Africa, many other communities have taken on the challenge of establishing a CID. If supported by both the community and the Municipality, the GRT CID will be created to strategically allocate resources towards achieving the following key pillars for the improvement of Graaff-Reinet:

- **Improving Safety & Security:** Improving safety in the area for all residents, by installing security measures such as CCTV cameras, patrol and response vehicles, and supporting local security entities in town.
- **Cleaning & Maintenance:** Including enhanced cleaning and maintenance of public spaces to improve overall quality of life by providing additional services such as litter removal, waste collection points and maintaining street furniture.
- **Environmental Development:** Including but not limited to beautifying and upgrading public areas and facilities; and promoting inclusivity and diverse community engagement in improving public facilities and spaces. Providing supplementary services such as planting indigenous species, development of parks and greenbelts and setting up playparks where appropriate.
- **Promoting Social Upliftment:** Empowering local communities through supporting and developing civic organisations, such as Non-Profit Organisations (NPO) and Public Benefit Organisations (PBO), working closely with the organisations on the ground that are experts in their field. Ensuring coordinated efforts are made to support homeless individuals, abused woman and children and supporting organisations that are upskilling and equipping members of the community for employment.

1.7. Core Principles

The GRT CID Steering Committee recognizes that by voting in favour of establishing a CID in Graaff-Reinet, the community is placing its trust not only in the legal framework that governs CIDs, but also in the integrity of the individuals leading the initiative. In a small town like Graaff-Reinet, where everyone knows each other, this trust carries even greater significance. In return, the Steering Committee is committed to upholding the following principles throughout both the

establishment process and the ongoing management of the GRT CID, should it be approved.

Core principles guiding the GRT CID steering committee:

- **Transparency:** The GRT CID is committed to transparency through open, honest, and clear communication and decision-making. All relevant information, including plans, reports, and updates, will be readily accessible to all interested and affected parties to ensure trust and accountability.
- **Performance:** The GRT CID is dedicated to consistently striving for excellence by setting high standards and delivering results with efficiency, effectiveness, and a strong commitment to quality.
- **Inclusivity:** Embracing and respecting diverse perspectives, ensuring that everyone feels welcome, valued and has equal opportunities to contribute.
- **Social Responsibility:** Actively contributing to the well-being of all in our community, making ethical decisions and taking actions that positively impact the environment, community and future generations.
- **Sustainable Development:** We focus on fulfilling the needs of the local community without compromising the ability of future generations to achieve theirs.

In developing this Business Plan, the Steering Committee has placed a strong emphasis on aligning all proposed services and projects with the strategic goals and priorities outlined in the Municipality Integrated Development Plan (IDP). The success of the GRT CID is dependent on working together and bringing together stakeholders in a successful and meaningful way.

2. Proposed Services and/or Projects

2.1. Why does Graaff-Reinet need a CID?

The town of Graaff-Reinet is a very special and unique town, and the Steering Committee embarked on this initiative to preserve and ensure it stays the special and unique town that we know it to be. A CID would help Graaff-Reinet by providing reliable, extra funding to improve Safety & Security, Cleaning & Maintenance, Environmental Development and Social Upliftment in areas where the Municipality is struggling. It would create a coordinated management structure that keeps the Central Business District (CBD) and key tourist zones well-maintained, attractive, and economically active. Overall, a CID supports better service delivery, protects property values, and strengthens Graaff-Reinet's appeal for residents, businesses, and visitors. The Municipality must and will continue to deliver the services we pay for, however due to budgetary constraints and the size of our Municipality, it's not always possible to deliver the scale of services that people would like to enjoy. Therefore, the GRT CID gives residents the opportunity to take ownership of their town.

2.2. Urban Management Survey

In order to establish a CID, formal procedures set out in the Municipality By-law and Policy need to be followed. One of the earliest and most crucial steps in this process is conducting an Urban Management Survey (UMS). This survey plays a vital role in understanding the current state of the town and provides a clear picture of both the strengths and challenges within the community. By gathering valuable input from residents, property owners, and local businesses, the survey ensures that decisions about the CID are informed by the experiences and priorities of those who live and work in the area every day.

Once collected, the responses are carefully analysed by the Steering Committee to identify common themes, areas of concern, and opportunities for improvement. The insights gained from the survey directly informs the development of the GRT CID's Business Plan and budget, ensuring that the proposed interventions and initiatives are both targeted and relevant. Ultimately, this process helps to create a CID framework that is community-driven, transparent, and responsive to local needs, laying the foundation for a safer, cleaner and more vibrant urban environment.

This Business Plan, along with the proposed budget, is then presented to eligible ratepayers, who will ultimately decide whether to support the establishment of the GRT CID. The UMS focuses on four key pillars that reflect people's daily experiences and perceptions: Safety & Security, Cleaning & Maintenance, Environmental Development and Social Upliftment. These areas collectively capture the overall quality of life within the community and help highlight where focused attention and resources are most needed.

The UMS started on the 8th September 2025. For the GRT CID initiative to move forward, at least 20% of property owners within the defined area needed to participate in the survey. The survey results showed consistent and strong support for improving Graaff-Reinet and for establishing a CID to help achieve those improvements. The survey was completed on the 7th November 2025. In total **267 unique property owners** within the defined CID boundary completed the survey representing **332 additional rateable properties (ARP's)** within the boundary, exceeding the requirement of 20% (**equivalent to 276**).

Key Highlights

- Respondent profile: 84% of respondents are property owners and 74% of respondents regard Graaff-Reinet as their primary residence. 47% of respondents were female and 52% were male, while 1% prefer not to say.
- Long-term residency: 55% of respondents have lived in Graaff-Reinet for more than 16 years. 84% of respondents indicated that the character of the town has changed over the period that they have been here.
- Safety & security concerns: 75% of respondents feel that their neighbourhood has become less safe. 68% of respondents feel safe but could feel safer in their neighbourhoods while only 7% felt very safe. 84% of respondents have experienced some form of crime.
- Safety & security challenges: 79% of respondents feel that there is not sufficient visible policing in our streets. 92% of respondents have spent money on improving their own safety.
- Cleanliness concerns: 93% of respondents feel that litter in public areas in town is a problem. 55% of respondents believe that their neighbourhood has become dirtier.
- Cleanliness challenges: 72% of respondents believe that there is a lack of suitable and clean sidewalks. 80% of respondents feel that there are not sufficient bins in town.

- Maintenance concerns: 79% of respondents rated the overall condition of the braai and open areas as poor while 83% rated the overall condition of the parks and open garden spaces in town as poor.
- Maintenance challenges: 85% of respondents would like to see more dustbins and signage added to the parks and open areas while 74% of the respondents would like to see more toilet facilities being added.
- Environmental concerns: 79% of respondents believe that mowing and weeding would improve the parks and open spaces and 66% of respondents believe that planting of trees would improve the parks and open spaces.
- Environmental challenges: 51% of respondents do not take their recycling to Graaff-Reinet Recyclers. 78% of respondents believe that having more accessible drop off sites will prevent people from dumping their waste illegally.
- Social concerns: 94% of respondents believe that homeless individuals is a cause of concern in Graaff-Reinet. 72% of respondents believe that homelessness presents a problem all the time.
- Social challenges: 71% of respondents indicated that homelessness effects their area by people sleeping in their area. 85% of respondents indicated that homelessness effects their area through people scratching/picking in bins.

2.3. Proposed Improvements

In response to the community priorities identified through the UMS, the GRT CID Steering Committee proposes the introduction of supplementary services to enhance those already provided by the Municipality . The GRT CID operations will be structured around four core pillars: Safety & Security, Cleaning & Maintenance, Environmental Development, and Social Upliftment. As a close-knit community where everyone knows each other, transparent and consistent communication about the GRT CID initiatives and achievements will be essential to keeping stakeholders informed and demonstrating the value of the additional rates contributed by property owners.

2.4. Improving Safety & Security

Safety is a concern shared by many—not only in Graaff-Reinet, but across South Africa. While Graaff-Reinet may not experience the same level of crime as some other parts of the country, it remains a top priority for residents. Unfortunately, the decline in employment opportunities has led to an increase in crime,

particularly break-ins and theft, often linked to substance abuse involving drugs and alcohol. To address these concerns, the Steering Committee has explored several possible solutions to improve safety in Graaff-Reinet. Alongside the UMS, the committee convened a group of individuals involved in local safety and security. This included both public and private stakeholders who play key roles in community safety. The purpose of the meeting was to openly discuss crime challenges and identify practical, realistic solutions tailored to the needs of Graaff-Reinet.

Based on the UMS the following concerns were identified:

- Graaff-Reinet is still viewed as a relatively safe town.
- Many residents feel their neighbourhoods have become less secure and safety.
- Most feel reasonably safe at home during the day and night.
- Residents generally feel safe walking to and from work, though few feel completely safe.
- Most respondents have experienced some form of crime, mainly break-ins/burglaries and vandalism.
- Many have invested in improving their own security.
- Most feel there is insufficient visible policing in the streets.
- Few feel safe walking alone in their neighborhoods.
- Many would feel safer with more cameras and patrolling.

The following practical and realistic safety solutions were proposed:

- A network of monitored CCTV cameras at the three entrances to Graaff-Reinet.
- A network of monitored CCTV cameras at strategic locations in town, namely the entrance of Kroonvale, Bergendal, Umasizakhe, Industrial area as well the Horseshoe.
- A maintenance contract will be entered into with an accredited provider to ensure all cameras are maintained in full working order.
- Increase patrol and response vehicles in the area 24/7. The GRT CID will work with a service provider to support and increase the visibility of patrolling

in the area. As well as working with local Law Enforcement to increase their presence in public spaces.

- A service provider will be appointed to manage the control room responsible for monitoring the CCTV network, receiving alerts from patrols and the public (via all available communication channels, including a dedicated WhatsApp number), and coordinating appropriate response and dispatch.
- Assist with training and the registration of car guards.
- Support current community watch initiatives linking them to the control room for additional assistance (for example: Op die Oewer, Kroonvale and Umasizakhe).

We will work closely with a service provider to oversee the CCTV network using proactive monitoring software that generates alerts. While all cameras will continuously record and store footage for a minimum agreed period (at least several weeks), active monitoring of most internal cameras will only occur during nighttime hours. However, cameras positioned along the hotspot areas will generate alerts 24/7. Importantly, all cameras will monitor public spaces only—no private properties or land will be surveyed—ensuring full compliance with relevant CCTV legislation, Municipal By-laws, and the CID’s strict public-space-only mandate.

The effectiveness of this Safety & Security strategy relies on seamless coordination and communication between all appointed service providers, who will be selected through a fair and transparent process. The core components—control room operators and patrollers and response units—will remain in constant contact via a secure private radio channel and cellphones. The control room will serve as the central hub, monitoring cameras, receiving alerts, and directing response actions. Collaboration with service providers is essential, particularly given its expertise in handling camera alerts and maintaining close communication with SAPS, Rural Safety and private security companies.

Areas within the proposed boundaries of the CID where the improvements and/or upgrades will be carried out:

Upgrade/Improvements	Area of upgrade/improvement
A network of monitored CCTV cameras:	- Asherville - Bergendal & Spandau - Horseshoe - Industrial area - Kroonvale - Sunnyside - Umasizakhe
Increase patrol and response vehicles in the area:	- Asherville - Bergendal & Spandau - Horseshoe - Industrial area - Kroonvale - Sunnyside - Umasizakhe
Training and registration of car guards:	- Horseshoe
Support current community watch initiatives:	- Bergendal & Spandau - Horseshoe - Kroonvale - Umasizakhe

Total estimated costs of these services and/or projects over the term of the CID:

Description	Year 1	Year 2	Year 3	Year 4	Year 5	Total
CCTV & Monitoring	R180 0000,00	R1 085 000,00	R700 000,00	R400 000,00	R450 000,00	R4 435 000,00
Patrolling	R650 000,00	R700 000,00	R751 500,00	R865 000,00	R851 000,00	R3 817 500,00
Car guard	R100 000,00	R120 000,00	R80 000,00	R80 000,00	R100 000,00	R480 000,00
Annual Total	R2 55 0000,00	R1 905 000,00	R1 531 500,00	R1 345 000,00	R1 140 000,00	

Motivate the allocation of resources:

CCTV Monitoring

Why it's needed:

- 82% of respondents would feel safer walking unaccompanied in their neighborhood if there were more cameras and patrolling.
- 75% respondents feel that their neighborhood has become less safe.
- Crime rates, vandalism, and petty theft often go unreported or unsolved due to a lack of evidence.
- Certain public areas (for example: parks, intersections, business zones) are hotspots for criminal activity.

Benefits:

- Acts as a strong deterrent to criminal behavior.
- Provides real-time surveillance and evidence for investigations.
- Enhances emergency response through visual monitoring.

- Increases accountability and transparency in both public and private spaces.

Patrolling

Why it's needed:

- 82% of respondents would feel safer walking unaccompanied in their neighborhood if there were more cameras and patrolling.
- 79% of respondents feel that there is not sufficient visible policing in our streets.
- Visible law enforcement or security presence significantly reduces crime and disorder.
- Fast response is critical during emergencies, and regular patrols ensure quicker action.
- Unpatrolled areas may become targets for illegal activities.

Benefits:

- Enhances public confidence and a sense of safety.
- Encourages law-abiding behavior in public areas.
- Helps enforce Municipal By-laws, reduce noise complaints, loitering, and more.
- Enables direct interaction between officers and the community, strengthening trust.

Car guards

Why it's needed:

- Ensures car guards are registered, vetted, and identifiable.
- Provides training to improve professionalism and service.
- Ensures legal compliance with Private Security Industry Regulatory Authority (PSIRA) and Municipal rules.
- Manages placement and schedules for better organization.

- Maintains accountability and performance oversight.
- Promotes fair working conditions and reduces exploitation.
- Strengthens safety and trust for motorists and the community.
- Enhances the town's image and visitor experience.

Benefits:

- Enhances public confidence and a sense of safety.
- Better control in public spaces.
- Ensures guards are trained, vetted, and legal.
- Provides fair working conditions and oversight.
- Strengthens the town's image and visitor experience.

The combination of CCTV monitoring, car guard management and regular patrolling is essential for building a safer, more resilient town. These measures work best together, CCTV ensures oversight, and patrolling provides presence and rapid intervention. Implementing these initiatives will lead to a significant reduction in crime, improved quality of life, and a stronger, more connected community.

The proposed services are consistent with **Municipality IDP KPA 1**; *“Spatial planning, land, human settlement and environmental management”*, under the **Strategic Objective**; *harmonious, sustainable and inclusive land development, within a protected environment*.

2.5. Cleaning & Maintenance

Graaff-Reinet is a relatively clean and well-maintained town. However, as the population has grown over the years, the amount of waste has increased and the infrastructure has begun to show signs of wear and tear. Cleaning & Maintenance efforts will primarily focus on the town's industrial and business areas, as these are the zones most frequented by visitors and play a key role in shaping public perception of the town. In addition to the UMS, the committee brought together a group of individuals involved in local Cleaning & Maintenance and Environmental Development. This included both public and private stakeholders who play vital roles in keeping the community clean, well-maintained and beautified. The purpose of the meeting was to openly discuss current challenges and identify practical, realistic solutions tailored to the specific needs of Graaff-Reinet. Important to note is that the Cleaning & Maintenance pillar will work closely with the Environmental Development pillar. The CID will partner with qualified service providers to assist with the removal of waste and recycling as well as with local civic organizations.

Based on the UMS the following concerns were identified:

- Many respondents believe there is a lack of suitable and clean sidewalks.
- Over half feel their neighbourhood has become dirtier.
- Litter in public areas is widely seen as a problem.
- There are insufficient bins, and existing bins are not regularly cleaned.
- Accessible drop-off points in town are seen as a way to help reduce littering.
- The overall condition of braai areas, parks, and open garden spaces is generally considered poor.
- Most respondents want more measures to improve braai, open areas, parks and gardens.
- Many would like more dustbins and signage in parks and open areas.
- There is a desire for additional toilet facilities in these public spaces.

The following practical and realistic safety solutions were proposed:

- Cleaning and maintenance of open public spaces and sidewalks.
- Installation and emptying of waste bins.
- Setting up multiple waste drop off spaces.
- Supporting organisations that facilitate recycling.
- Maintaining and installing public toilets.
- Installation of public seating.
- Set up of play parks.
- Monitor and combatting illegal dumping.
- Signage and awareness campaigns, focusing on encouraging and educating locals about recycling.

The biggest challenge in addressing cleaning is education and awareness. The GRT CID will collaborate closely with civic groups doing valuable awareness work, as well as with SANParks, which is particularly concerned about the impact of plastic and waste on the park's environment.

Area within the proposed boundaries of the CID where the improvements and/or upgrades will be carried out:

Upgrade/Improvements	Area of upgrade/improvement
Cleaning and Maintenance of open public spaces, sidewalks:	- Asherville - Bergendal & Spandau - Horseshoe - Industrial area - Kroonvale

	- Sunnyside - Umasizakhe
Installation and emptying of waste bins:	- Asherville - Bergendal & Spandau - Horseshoe - Industrial area - Kroonvale - Sunnyside - Umasizakhe
Setting up waste drop off spaces:	- Asherville - Horseshoe - Kroonvale - Umasizakhe
Maintaining and installing public toilets:	- Horseshoe
Set up of play park/green & open space:	- Asherville - Bergendal & Spandau - Horseshoe - Kroonvale - Sunnyside - Umasizakhe
Installation of public seating:	- Asherville - Bergendal & Spandau - Horseshoe

	- Kroonvale - Sunnyside - Umasizakhe
Monitor and combatting illegal dumping:	- Asherville - Bergendal & Spandau - Horseshoe - Kroonvale - Umasizakhe

Total estimated costs of these services and/or projects over the term of the CID:

Description	Year 1	Year 2	Year 3	Year 4	Year 5	Total
Cleaning & waste removal	R420 000,00	R462 000,00	R487 000,00	R514 500,00	R544 750,00	R2 428 250,00
Restoration & Maintenance	R610 000,00	R1 030 500,00	R1 194 505,00	R900 000,00	R690 000,00	R4 425 005,00
Annual Total	R1 030 000,00	R1 492 500,00	R1 681 505,00	R1 414 500,00	R1 234 750,00	

Motivate the allocation of resources to any specific area:

Cleaning Services

Why it's needed:

- 80% of respondents think that having accessible drop off points in town would help with littering.
- 55% of respondents believe that their neighbourhood has become dirtier.
- 80% of respondents feel that there are not sufficient bins in town.
- 85% of respondents would like to see more dustbins and signage.
- Accumulation of litter, waste, and illegal dumping creates health risks and environmental hazards.
- Unsanitary public spaces contribute to lower quality of life.
- A dirty environment discourages tourism, business investment, and community pride.

Benefits:

- Promotes public health by reducing exposure to harmful waste and pollutants.
- Enhances the town's image, making it more welcoming to residents, investors, and visitors.
- Encourages civic responsibility and discourages further littering when spaces are well maintained.
- Supports environmental sustainability through proper waste management and recycling initiatives.

Maintenance

Why it's needed:

- 83% of respondents rated the overall condition of the parks and open garden spaces in town as poor.
- 74% of the respondents would like to see more toilet facilities being added.
- Neglected infrastructure—such as damaged sidewalks, potholes, broken streetlights, and overgrown vegetation—creates safety hazards.

- Poorly maintained public spaces (parks, roads, signage, benches) negatively impact the town's appearance and usability.
- Lack of regular maintenance leads to higher long-term repair costs and reduces the lifespan of municipal assets.

Benefits:

- Ensures the safety of pedestrians, drivers, and cyclists through regular repairs and upkeep.
- Improves access and mobility, especially for children, the elderly, and people with disabilities.
- Preserves the value of public infrastructure and reduces future repair costs.
- Creates a more live able, organized, and visually appealing environment.

The implementation of consistent Cleaning Services and proactive Urban Maintenance is crucial to the well-being of Graaff-Reinet. These services are not just about appearance—they directly impact public health, safety, economic development, and community morale.

The proposed services are consistent with **Municipality IDP KPA 2**; *“Service Delivery & Infrastructure Planning”*, under the **Strategic Objective**; *“To have all Municipal water-supply, consumers connected to a meeting system and registered on the debtor’s database for monthly billing purposes”*.

2.6. Environmental Development

What sets the town of Graaff-Reinet apart from an environmental perspective is its unique location, surrounded by the Camdeboo National Park and the stunning, expansive landscapes of the Karoo. Many visitors are drawn to Graaff-Reinet to experience this natural beauty and sense of open space. It is therefore essential to preserve and thoughtfully develop these assets to attract even more tourists. The boundary of the CID borders both the Camdeboo National Park and the Nqweba Dam, a popular recreational spot for local residents. In addition to the UMS, the committee brought together a group of individuals involved in local Cleaning & Maintenance and Environmental Development. This included both public and private stakeholders who play vital roles in keeping the community clean, well-maintained and beautified. The purpose of the meeting was to openly discuss current challenges and identify practical, realistic solutions tailored to the specific needs of Graaff-Reinet. Important to note is that the Cleaning & Maintenance pillar will work closely with the environmental pillar.

Based on the UMS the following concerns were identified:

- Many respondents feel that mowing, weeding, and tree planting would improve parks and open spaces.
- Most respondents would recycle if home collection services were available but don't otherwise.

The following practical and realistic environmental development services were proposed:

- Planting of indigenous trees and plants.
- Picking up litter.
- Collection and removal of leaves.
- Trimming of vegetation.
- Mowing grass in public spaces, parks and green belts.
- Trimming foliage to ensure clear visibility for CCTV cameras.

Area within the proposed boundaries of the CID where the improvements and/or upgrades will be carried out :

Upgrade/Improvements	Area of upgrade/improvement
Planting of indigenous trees and plants:	- Asherville - Bergendal & Spandau - Horseshoe - Industrial area - Kroonvale - Sunnyside - Umasizakhe

Picking up litter:	- Asherville - Bergendal & Spandau - Horseshoe - Industrial area - Kroonvale - Sunnyside - Umasizakhe
Trimming of vegetation:	- Asherville - Bergendal & Spandau - Horseshoe - Industrial area - Kroonvale - Sunnyside - Umasizakhe
Mowing grass in public spaces, parks and green belts:	- Asherville - Bergendal & Spandau - Horseshoe - Industrial area - Kroonvale - Sunnyside - Umasizakhe

Total estimated costs of these services and/or projects over the term of the CID:

Description	Year 1	Year 2	Year 3	Year 4	Year 5	Total
Environmental Development	R420 000,00	R462 000,00	R508 200,00	R559 020,00	R614 922,00	R2 564 142,00

Motivate the allocation of resources to any specific area:

Planting of Trees

Why it's needed:

- 66% of respondents believe that planting of tree would improve the parks and open spaces.
- Many public areas lack sufficient greenery, which influences the beautification of a space.

Benefits:

- Improves air quality by absorbing carbon dioxide and releasing oxygen.
- Provides shade, reduces heat, and lowers energy costs.
- Prevents soil erosion and enhances stormwater management.
- Beautifies the town and increases property values.
- Supports local biodiversity by providing habitats for birds and insects.
- Supports mental health.

Mowing Grass and Maintaining Green Spaces

Why it's needed:

- 79% of respondents believe that mowing and weeding would improve the parks and open spaces.
- 72% of respondents believe that there is a lack of suitable and clean sidewalks.
- Overgrown grass and neglected parks creates a poor impression of the town.

Benefits:

- Maintains a neat, organized, and safe environment.
- Encourages public use of open spaces for recreation and wellness.
- Discourages illegal dumping or criminal activity in neglected areas.
- Enhances the beautification and pride in public spaces.

Picking Up Litter

Why it's needed:

- 72% of respondents believe that there is a lack of suitable and clean sidewalks.
- Littered streets, parks, and open spaces are unsightly and harmful to the environment.
- Waste on the ground pollutes soil and water.

Benefits:

- Promotes environmental responsibility and community pride.
- Reduces health risks associated with waste and contaminants.
- Prevents clogging of drains and rivers.
- Enhances the town's reputation and attractiveness to visitors and investors.

Investing in Environmental Development through tree planting, grass mowing, and cleaning sidewalks is not just about beautification—it is essential for public health, environmental sustainability, and economic growth. These activities contribute to a cleaner, safer, and more vibrant town where people want to live, work, and visit.

The proposed services are consistent with **Municipality IDP KPA 1**; *“Spatial planning, land, human settlement and environmental management”*, under the **Strategic Objective**; *harmonious, sustainable and inclusive land development, within a protected environment*.

2.7. Social Upliftment

The town of Graaff-Reinet is home to many civic organisations doing valuable work in the community. While most are not located within the identified GRT CID boundary their impact is still felt in the town. One of the major concerns for the GRT CID is homelessness, as there is currently no adult shelter or drop-in center for children. Simply removing individuals from the GRT CID does not address the root of the issue. Meaningful progress will require active collaboration and partnerships to develop long-term solutions for people experiencing homelessness in Graaff-Reinet. Our goal is to create real, lasting support system that helps these individuals reintegrate into society. Alongside homelessness, unemployment remains a major issue in our town. To address this, alternative job opportunities that focus on skill development should be created, giving people a chance to build valuable skills and potentially start their own businesses. The GRT CID will work closely with civics focusing on skills development and providing support to civic organisations that take care of the lost and vulnerable.

Based on the UMS the following concerns were identified:

- Homeless individuals are seen as a major concern in Graaff-Reinet, which presents a problem all the time.
- Most respondents want the CID to collaborate with Non-Governmental Organisations (NGO) to address issues like homelessness.
- Many support the CID assisting and supporting less fortunate residents beyond the CID boundary.

The following practical and realistic social and economic development solutions were proposed:

- Engage and provide support to the setup of a homeless shelter through collaboration with the Municipality and Department of Social Development.

- Engage and provide support to qualified NPO who develop skills and focus on job creation and job readiness.
- Support local feeding schemes.
- Engage and provide support to qualified NPO who support disadvantaged members of our community such as child, elderly and terminally ill.
- Engage and provide support to qualified NPO to provide support to animals in need.

Awareness and education play a vital role in addressing many of the social and economic challenges facing our communities. While acts of kindness—such as giving money to street children or informal car guards—may seem helpful, they can unintentionally contribute to long-term dependency and continuous cycles of poverty. Similarly, choosing not to recycle may appear harmless, but it often reinforces informal and unsafe forms of income, such as "bag scratching," where individuals sort through waste to find recyclables. Both of these issues have severe impact on our town, especially the tourism sector as many tourists are harassed. Therefore, the GRT CID will work closely with stakeholders to look for alternative ways in which these individuals can be supported. Not only will this have a positive impact on the social and economic development but also safety & security and cleaning & maintenance. The GRT CID is committed to supporting initiatives that provide sustainable and empowering solutions for disadvantaged individuals in our town. By promoting education, structured assistance, and community-based programs, we aim to foster long-term change that benefits both vulnerable populations and the broader community.

A key concern in Graaff-Reinet is that there is no organisation that is currently focusing on homeless individuals as well as on drug and alcohol addictions. Therefore, there is nowhere for individuals to go. Based on the results from the UMS, homelessness is a major concern and finding a potential implementer that would be able to set up a shelter that provides support to homeless and addicts in Graaff-Reinet through consultation is essential.

Area within the proposed boundaries of the CID where the improvements and/or upgrades will be carried out;

- Asherville
- Bergendal & Spandau
- Horseshoe
- Industrial area

- Kroonvale
- Sunnyside
- Umasizakhe

Total estimated costs of these services and/or projects over the term of the CID.

Description	Year 1	Year 2	Year 3	Year 4	Year 5	Total
Social Upliftment	R250 000,00	R500 000,00	R750 000,00	R1 266 596,35	R1 450 559,50	R4 217 155,85

Motivate the allocation of resources to any specific area:

Why Social Upliftment is Needed:

- 94% of respondents believe that homeless individuals is a cause of concern in Graaff-Reinet.
- 72% of respondents believe that homeless present a problem all the time.
- 94% of respondents would like to see that our area supports the collaboration with NGOs to positively deal with these matters such as homelessness.
- 89% of respondents would be supportive of the CID helping and supporting residents who are less fortunate and are outside of the CID boundary.
- High levels of poverty and unemployment are affecting the well-being of many residents.
- Youth, women, people with disabilities, and other vulnerable groups often lack access to opportunities for education, skills development, and employment.
- Social issues such as substance abuse, crime, and domestic violence are often symptoms of deeper socio-economic inequality.

Benefits of Social Upliftment:

- Economic Empowerment
 - Equipping residents with skills and support helps reduce unemployment and dependency on social grants.
 - Encourages entrepreneurship, local business growth, and community-based job creation.
- Improved Quality of Life
 - Promotes dignity, self-reliance, and social cohesion.
 - Reduces crime and social instability by addressing root causes like poverty and homelessness.
- Youth and Skills Development
 - Keeps young people engaged in productive activities and away from negative influences.
 - Builds a skilled, motivated workforce that can contribute to the town's economic growth.
- Strengthened Communities
 - Encourages active citizenship, volunteerism, and pride in the local area.
 - Builds a more inclusive society.

By investing in social programs, skills training, youth empowerment, and support services for vulnerable groups, we will build a stronger, safer, and more prosperous community. The issue of homelessness is a major concern, it's an issue that cannot be addressed overnight, therefore a suitable partner and solution needs to be found.

The proposed services are consistent with **Municipality IDP KPA 4; "Local Economic Development"**, under the **Strategic Objective; "To launch a radical battle against poverty, inequality and unemployment – with a particular focus on the youth – and to enhance the quality of life for all citizens through the development of innovative, inclusive and competitive local economies"**.

2.8. Marketing and Communication

Graaff-Reinet is a small town, with not all residents being familiar with technology therefore regular and updated communication is crucial to the success of the GRT CID. The GRT CID website is the vehicle that the GRT CID will use to transfer all the information to the general public. In addition to the information being shared on the website, the GRT CID will use the current Facebook pages of the town (for example: Graaff-Reinet Tourism and The Advertiser) to share any news and upcoming events.

A WhatsApp platform will be available for residents to log any criminal activity that they see or experience. These key statistics will be compiled on a quarterly basis and shared with the public via the website and newsletter. In addition to the stats report, a quarterly report will be compiled and shared with the members of the GRT CID to keep them up to date of our developments and progress. A welcome letter will be shared with any new property owners that fall within the GRT CID boundary, informing them of the GRT CID and how they can get involved.

A complaint policy will be made available on the website, in case members of the public would like to raise any complaints. Members of the public are also able to send a message to the GRT CID office via the website page. An internal communication policy has been drafted to ensure that all correspondence receives an accurate response. The GRT CID offices will be easily accessible to members of the public should they wish to come and see the officials in person.

3. Financial Impact of CID

3.1. Funding of the CID

All property owners in Graaff-Reinet who fall within the boundaries of the GRT CID (see map above) will be liable to pay. This additional fee will be added to the Municipal bill on a monthly basis, where it will be 'ring fenced' to the GRT CID. A residential and commercial fee will be charged. A CID is funded from the additional rates paid by property owners within the boundary of a CID. It does not receive any grants or subsidies from the Municipality, but does have the power to raise additional income. Property owners liable for the additional rate are not automatic members and can sign up for membership to allow them to vote on the affairs of a CID. Property owners who receive a rates rebate are exempt from the additional rate and are not entitled to vote on the proposed CID and

cannot apply for membership if a CID is established. However, it remains the responsibility of the property owner to apply for this relief.

The following categories of owners / properties will be 100% exempt as per the CID Policy:

- Indigent, Senior Citizens and Disabled Persons who meet the criteria for rates relief.
- Council owned properties used predominantly for official Municipal business.
- Properties owned by an organisation – not for profit and used as an early childhood development facility.
- Properties owned by an organisation – not for profit and used for youth development.
- Properties owned by an organisation – not for profit and used as accommodation for the vulnerable.
- Properties owned by an organisation – not for profit and used for an old age home.
- Properties owned by an organisation – not for profit and used exclusively for amateur sport.
- Properties owned by a Social Housing Regulatory Authority Accredited Social Housing Institution and used for social housing.
- Properties owned by war veterans' associations and used for the welfare of war veterans.
- Properties owned by public benefit organisations and used for specified public benefit activities.
- Properties owned by a religious community and used for specified religious purposes.
- Cemeteries and Crematoria.
- Properties owned by an organisation – not for profit and used for animal shelters.
- Properties owned by an organisation – not for profit and used as a local community museum.
- Nature conservation land.

Financial impact of the CID:

The GRT CID is made up of:

- Residential: 1339
- Business commercial/Industrial: 326

The weighting for the ARPs is as follows:

- Residential is 2/5
- Business commercial/ Industrial is 3/5

The rating factor for residential is 0,0011 and Business commercial/industrial is 0,0043.

The expenditure Budget for each year of the Business Plan:

Year 1	R5 000 000,00
Year 2:	R 5150 000,00
Year 3:	R5 304 500,00
Year 4:	R5 463 635,00
Year 5:	R5 627 544,00

The additional rates required to fund the annual budget escalates with an average of 3% over the 5 years.

Budget allocation per Portfolio:

Safety & Security	51%
Cleaning & Maintenance	20.6%
Environmental Development	8.4%
Social Upliftment	5%
General Expenditure	12%
Contribution to the Rolling Bad Debt Reserve	3%

In accordance with the Municipality CID By-law, the Board of Directors must annually review the term budget and prepare a detailed budget for the upcoming financial year, aligned with the specific needs outlined in the Business Plan. This budget is funded through an additional property rate based on the Municipal valuation of all properties within the GRT CID boundary, with VAT charged at 15% on the additional rate. Property owners who received a rates rebate will not pay additional rates. It's the responsibility of the property owner to apply for such relief.

3.2. Calculation of the Additional Rate in the First Year

The additional rate is calculated as a 'rate-in-the-rand' by dividing the total GRT CID budget for the year by the combined Municipal valuation of all eligible properties within the GRT CID area. This rate, along with the GRT CID budget, is approved by Council as part of Municipality overall budget and remains fixed for the financial year starting 1 July 2026. It is recalculated annually during Municipality budget process. In line with the CID By-law, different additional rates may apply to different categories of rateables properties; therefore, both residential and non-residential rates are applicable within the GRT CID.

The individual CID contribution for residential and non-residential properties is calculated as follows, where R.0.XXXXXX represents the additional rate 'rate-in-the-rand':

- Property municipal valuation x R 0.XXXXXX = Annual CID contribution (VAT exclusive)
- Annual CID contribution (VAT exclusive) ÷ 12 = Average monthly CID contribution (VAT exclusive)
- Average monthly CID contribution (VAT exclusive) x 1.15 = Average monthly CID contribution (VAT inclusive).

For example, the monthly CID contribution for a property assuming a 'rate-in-the-rand' of for Residential and Non-Residential would be calculated as follows:

- Residential: (R 1000 000, 00 * R0, 001397 = R 1 397, 00 (Annual contribution VAT excl)) / 12 = R 116.42 (Monthly contribution excl VAT)
- Non-Residential: (R 1000 000, 00 * R0, 002126 = R 2 126, 00 (Annual contribution VAT excl)) / 12 = R 177.17 (Monthly contribution excl VAT)

The Municipality will pay the GRT CID a monthly amount equal to one-twelfth of its approved annual budget, minus 3%, which is retained by the Municipality as a rolling bad debt reserve. This reserve is held in a ring-fenced account specifically for the GRT CID. At the end of each financial year, the Municipality reconciles actual billing against the approved GRT CID budget, and any over-or under-collection is adjusted using the reserve account to ensure there is no negative cash flow impact on the GRT CID. This reserve is then compared to the year-end arrears. If the arrears are less than the reserve balance, 75% of the difference is paid out to the GRT CID in accordance with the Finance Agreement between Municipality and the GRT CID.

3.3. Expected Cost in Subsequent Years

All CIDs operate on five-year terms, and this Business Plan and budget apply to the proposed term from 1 July 2026 to 30 June 2031. Cost increases are anticipated across all budget lines due to inflation, and the GRT CID has factored in an average 3% increase in ongoing expenditure.

Budget increases are not entirely linear. The actual percentage increase in the overall expenditure of the GRT CID is outlined below.

The table below gives an indication of the budget of each year of the Business Plan:

Description	Year 1	Year 2	Year 3	Year 4	Year 5	AVERAGE
Total expenditure	R5 000 000,00	R5 150 000,00	R5 304 500,00	R5 463 634,60	R5 628 158,18	3%
Annual increase		3%	3%	3%	3%	3%

4. Proposed Management Structure

The GRT CID will be run by an NPC incorporated in accordance with the provisions of the Companies Act. The members of the Steering Committee will act as the founding directors of the NPC until a Members' Meeting is convened within six months of the date of incorporation. The Municipality is not involved in their day-to-day operations, but merely exercises oversight and legal compliance. A Councilor is appointed by the Executive Mayor to attend the GRT CID Board meetings as an Observer facilitating the Municipality oversight of the NPC. Membership in the GRT CID is free and open to all eligible ratepayers within the defined geographic area, subject to the completion and submission of the required application forms. Only registered members of the NPC will have voting rights on matters concerning the GRT CID. At the Members' Meeting, a Board of Directors will be elected. All nominees for directorship must be members of the NPC. Following their election, the Board will appoint a chairperson and allocate specific portfolios to each director. These directors will be responsible for overseeing their respective portfolios, as detailed in this Business Plan. The sustainability of the GRT CID activities relies heavily on the professional management of service providers and the effective coordination of all initiatives aligned with its core objectives.

A CID Manager will be appointed to manage the day-to-day operations of the GRT CID. Their responsibilities will include overseeing the performance of appointed service providers, ensuring effective communication with stakeholders on CID-related matters, and handling the administrative functions necessary for the smooth and efficient running of the organization. The GRT CID Manager will report directly to the GRT CID Board.

1. Example of Management Structure

4.1. Membership of the CID Company

All property owners who fall within the GRT CID boundary can participate in the affairs of the GRT CID, but only members can vote at Members Meetings (for example: Annual General Meeting (AGM)). In accordance with Companies and Intellectual Property Commission (CIPC) rules, every property owner within the GRT CID must apply in writing to the GRT CID Board for membership of the NPC. Properties owned by corporate entities or trusts are subject to additional documentation requirements.

4.2. Composition and Election of Directors

The board shall elect a Chairperson, Deputy Chairperson and Treasurer from its members at the first meeting of the board of directors convened after each AGM.

Although the GRT CID includes only the boundaries specified, areas of the community beyond these defined limits will also benefit from its implementation. It is not in the best interest of our town for improvements to be limited to a select few areas; a unified, comprehensive approach is essential for meaningful and sustainable development.

- All meetings will be advertised on the GRT CID website, Facebook page, the local newspaper; the Advertiser as well as be put up on local news boards around town (Spar, PnP, Shoprite, local businesses)
- A website will be available that will share all the information of what the GRT CID is doing in Graaff-Reinet.
- The GRT CID will have office hours for members of the community (including ARPs and non-ARPs).
- Any member of the community can also contact the office with any questions or concerns they might have.

4.3. Oversight and Accountability

Although the GRT CID Board, in collaboration with the appointed GRT CID Manager, will oversee day-to-day operations and manage the deployment of the budget, all CIDs remain subject to strict external oversight and accountability.

The GRT CID will have to adhere to the following:

- The NPC will have a Memorandum of Incorporation (MOI) that will guide the process and decision making.
- Annual budget needs to be submitted to the Executive Director for onward submission to Council.
- Within three months of the AGM, the management body must provide the Executive Director and Council with an annual report on its progress in implementing the Business Plan.
- A qualified external accountant will be appointed.
- Treasurer of management body must present written financial reports of expenses, revenues and bank balances for the boards review and consideration at each board meeting.
- A South African Institute of Chartered Accountants (SAICA) external auditor will be appointed to conduct the annual audit.
- Audited annual financial statements must be provided to Executive Director and Council by 31 August each year.
- Audited annual financial statements and an annual report is provided to the Executive Director and Council.
- Regular Board meetings will be scheduled, with dates published in advance on the GRT CID website. The first 30 minutes of each meeting will be open to non-Board members who wish to raise questions or concerns, subject to compliance with the attendance requirements outlined in the Memorandum of Incorporation (MOI).
- A Councillor representative, along with an alternate, will be appointed by the Executive Mayor to serve on the Board in an observer capacity.

4.4. Procurement Policy

An inclusive procurement policy will be developed and made publicly available on the GRT CID website. This policy will outline the procedures for appointing service providers for both ongoing and ad hoc services, ensuring transparency, fairness, and accountability in all procurement processes.

4.5. Complaints Procedure

A complaints policy will be drafted and published on the GRT CID website to provide clear guidance for additional ratepayers and other affected parties on how to raise concerns. The policy will also outline the process for escalating issues if an initial response is unsatisfactory, ensuring transparency and accountability in addressing complaints.

5. Permissible Amendments to the Business Plan

If, at any point in the future, it is decided that the geographical boundaries of the GRT CID should be amended, such changes must be carried out through the formal process prescribed in Section 25 of the Municipality CID By-law. If the deployment of additional services—beyond those specified in this Business Plan—is deemed necessary, and such services do not constitute material deviations, amendments may be requested in accordance with Section 25 of the Municipality CID By-law. Any such request will require due consideration by the Board of Directors and Executive Director.

5.1. List any provisions of the Business Plan which may be amended in accordance with section 25(2) of the By-law:

- 5.1.1. Alter the geographic boundaries of the CID;
- 5.1.2. Vary the terms of Liability for or the amount of the additional rate;
- 5.1.3. Increase the approved total expenditure to be funded by the additional rate (excluding funds generated by other means as contemplated in in Section 4(1)(b) for the relevant financial year in terms of the term budget unless such increase:
 - 5.1.3.1. Is directly attributable to property development(s) within the CID, substantially increasing the number of ARPs and
 - 5.1.3.2. Is borne by the new ARPs of such development;
- 5.1.4. Alter the scope or level of services performed by the Management Body

PART B: IMPLEMENTATION PLAN

1. MANAGEMENT & OPERATIONS											
NO.	ACTION STEPS	KEY PERFORMANCE INDICATOR	FREQUENCY per year	DURATION IN WEEKS,MONTHS OR YEARS					RESPONSIBLE	REPORTING	COMMENTS
				Y1	Y2	Y3	Y4	Y5			
1	Register GRT CID as an NPC	Proof of NPC registration documentation	Once	1					Board	Operational	
2	Apply for tax exemption with SARS	Proof of SARS tax exemption documentation	Once	1					Board	Operational

Annexure A: Public Participation Plan

PUBLIC PARTICIPATION PLAN: PROPOSED ESTABLISHMENT OF THE GRAAFF-REINET COMMUNITY IMPROVEMENT DISTRICT

- Explanatory note 1: This template serves as a guide for steering committees when compiling their proposed public participation plan for approval by the Executive Director as contemplated in section 6(2) of the CID By-law. The template provides examples of a wide range of notification and consultation methods that may be employed. The steering committee should identify methods that would be both meaningful and cost-effective, taking into account the particular characteristics of the local community of the proposed CID. Where the proposed methodology deviates from any mandatory requirements in terms of the By-law, the steering committee must motivate such deviation to Sub-Council, NGOs and any other focus groups the program.
- Explanatory Note 2: “local community” in relation to a CID- means the body of persons comprising individuals falling under one or more of the following categories –
 - (a) Property owners in the district, irrespective of whether or not they will be liable for paying the additional rate;
 - (b) Residents of the district;
 - (c) Tenants and body corporates in the district;
 - (d) Any civic organizations and non-governmental, private sector or labour organizations or bodies which are involved in local affairs in the district affected by the proposed improvement or upgrading of the district.

PUBLIC PARTICIPATION PLAN (Required under S6(2) of CID By-law)

“

OUR TOWN.
OUR HOME.
OUR FUTURE.

Why conduct a survey?

- The steering committee established in terms of Section 22 of the Local Government: Municipal Property Rate Act no.6 of 2024 has applied for the establishment of a special rating area (SRA) to the Dr. Beyers Naude Local Municipality.
- The municipal **policy and bylaw** requires a completed Urban Management Survey (UMS) to establish a Community Improvement District (CID).
- The UMS provides a clear view of the town's **condition, strengths, and challenges**.
- By collecting input from the community, the UMS ensures CID decisions reflect **local needs and experiences**.
- The UMS focuses on the **four key pillars** relating to individuals personal experience to **safety, cleanliness and maintenance, environmental** as well as social issues.

Method of conducting the survey

- Conducted from **mid-September to mid-November 2025**.
- Distributed via **email** using municipal contact information.
- Made available on the **website**.
- **Shared on local WhatsApp and Facebook groups**, reaching residents beyond the CID boundary.
- **Volunteers assisted door-to-door** to help residents complete the survey.

“

A CID is always initiated by the **COMMUNITY**, run by the **COMMUNITY** and for the benefit of the **COMMUNITY**!

Key Data

- 330 **responses** received.
- 267 **unique property owners** within the defined CID boundary completed the survey representing 332 additional rateable properties (ARP's) within the boundary, exceeding the requirement of 20% (equivalent to 276 responses).
- An additional 63 surveys were submitted by **unverified Graaff-Reinet residents**.

Key Highlights: Overview

- The results of the UMS were generally positive and showed a willingness to **support the improvement and development** for a CID in Graaff-Reinet.
- Most respondents were **property owners**.
- The majority listed **Graaff-Reinet as their primary residence**.
- Over half have **lived in town for more than 16 years**.
- Most noted that **the town's character has changed over time**.
- The vast majority **support establishing the GRT CID**.

Key Highlights: Security & Safety

- Graaff-Reinet is still viewed as a **relatively safe town**.
- Many residents feel their **neighbourhoods have become less secure and safety**.
- Most feel **reasonably safe at home** during the day and night.
- Residents generally feel **safe walking to and from work**, though few feel **completely safe**.

Has your neighbourhood become less safe?

330 responses

How safe do you feel in your neighbourhood?

330 responses

Key Highlights: Security & Safety

- Most respondents have **experienced some form of crime**, mainly **break-ins/burglaries** and **vandalism**.
- Many have **invested in improving their own security**.
- Most feel there is **insufficient visible policing** in the streets.
- Few feel **safe walking alone in their neighbourhoods**.
- Many would feel **safer with more cameras and patrolling**.

Respondents experience of crime
330 responses

Have you spent money on improving your own security?
330 responses

Key Highlights: Cleanliness

- Many respondents believe there is a **lack of suitable and clean sidewalks**.
- Over half feel their **neighbourhood has become dirtier**.
- **Litter in public areas** is widely seen as a problem.
- There are **insufficient bins**, and existing bins are **not regularly cleaned**.
- Accessible **drop-off points** in town are seen as a way to help reduce littering.

Has your neighbourhood become dirtier?
330 responses

Do you feel that litter in the public areas in town is a problem?
330 responses

Key Highlights: Maintenance

- The **overall condition of braai areas, parks, and open garden spaces** is generally considered poor.
- Most respondents want **more measures to improve braai, open areas, parks and gardens.**
- Many would like **more dustbins and signage** in parks and open areas.
- There is a desire for **additional toilet facilities** in these public spaces.

How would you rate the overall condition of the braai and open areas?
(1 = very poor, 5= excellent)

330 responses

How would you rate the overall condition of the parks and open garden spaces in town? (1 = very poor, 5 = excellent)

330 responses

Key Highlights: Environmental

Would you recycle if services were provided to your home?
317 responses

Which of the following measures would improve the parks and open spaces?
330 responses

- Many respondents feel that **mowing, weeding, and tree planting** would improve parks and open spaces.
- Most respondents would **recycle if home collection services were available**.

Key Highlights: Social Upliftment

Are homeless individuals a cause of concern in Graaff-Reinet?
330 responses

At which time do the homeless present a problem?
330 responses

- Homeless individuals are seen as a **major concern in Graaff-Reinet, which presents a problem all the time.**

Key Highlights: Social Upliftment

- Most respondents want the CID to **collaborate with NGOs** to address issues like homelessness.
- Many support the **CID assisting and supporting less fortunate residents** beyond the CID boundary.

Would you like to see that our area supports the collaboration with NGOs to positively deal with these matters?

330 responses

Would you be supportive of the CID helping and supporting residents who are less fortunate and do not fall within the SRA boundaries?

330 responses

Key Highlights: General

- Most respondents would **support the establishment of GRT CID** if the business plan is favorable.
- Many believe the **town's character has changed** over time.
- The town is generally seen as **friendly and welcoming**.
- Many respondents feel a **strong attachment to the town** and don't want to live elsewhere.

If a business plan that carries your favour is presented, would you support the establishment of the GRT CID?
